

Section 4: Linked Lists

17) Linked List Intro

→ Array are in contiguous in memory

→ But not linked list they can all over the places.

→ null terminated list

18) LL: Big O.

→ In linked list it doesn't matter item either 4 or 100 no. of steps would be the same, which means this is constant time to push.

→ which means $O(1)$

	LL	Array
Push	$O(1)$	$O(1)$
pop	$O(1)$	$O(1)$
Shift	$O(1)$	$O(n)$
unshift	$O(1)$	$O(n)$
insert	$O(n)$	$O(n)$
Delete	$O(n)$	$O(n)$
lookup by index	$O(n)$	$O(1)$
lookup by value	$O(n)$	$O(n)$
